

# SupplyLocker

Patented Take/Return in a Modular Industrialized System

## SupplyLocker

### Industrialized Locker Management of Consumable and Returnable Materials

SupplyLocker is the industrial solution to manage consumable and returnable tools, supplies and other assets. Its modular design lets you configure each system to meet your facility requirements.

In addition to our patented take/return technology, advanced control capabilities include:

- Tool and gage calibration
- Certification standards
- Lock down requirements
- Loan periods
- Quantity limits
- "One-for-One" exchanges

Fail Safe  
Technology

- Secure transaction capture in the event of an Internet failure using "store forward" technology
- Items selected in error can be easily returned
- Servers hosted by AT&T at their regional operations center
- Plug and Go technology!

## Plug and Go!

SupplyLocker is a simple to implement solution that can be stand-alone or mixed with other SupplyPro devices for a tailored solution. It's not just a machine for dispensing, with SupplyPro you also get SupplyPort, the industry's leading data management backbone, and our full staffing for implementation and on-call support services. Find out more today!

## SupplyLocker Manages

- Hand and power tools
- Calibration and serialized assets
- Measuring and testing equipment
- Portable computers
- Hand-held radios
- Rechargeable items

## Install as Stand-Alone or Co-Located with Other SupplyPro Devices
