

# SupplyLink

Easy to Use Touch Screen Controller Communicates Inventory Information from the Point-of-Use Device to the SupplyPort

## SupplyLink

### Just Touch It and Retrieve It!

SupplyLink is the universal control module that drives SupplyPro's Point-of-Use devices. It's simple-to-use touch screen interface is the gateway to the SupplyPort and a world of productivity-enhancing information.

## Simple Touch Access for Single or Multiple SupplyPro Devices

Each SupplyLink can drive one or multiple SupplyPro devices.

### New SupplyLink Enhancements:

- 15" XGA (1025x768) Color TFT LCD – 3" larger than previously with a higher resolution screen
- 8x the memory, running +4x faster!
- +3x storage capacity
- 6x faster processor
- Twice as many network ports capable of running 10x faster
- 10x the durability

### Standard SupplyLink Features:

- Multi-language access depending on user
- Fanless design
- Designed for industrial environments
- Support standard mag-stripe, barcode, prox and handheld scanner gun technologies

### Simple to Use – Just Touch and Go

- Simple selection of requested materials by authorized users
- Store forward technology allows dispensing according to business rules even when Internet connection to SupplyPort is interrupted
- Allows for easy check-in/check-out, and management of critical tools
- Easy and intuitive administration capabilities at the Point-of-Use
- Communicates inventory information from the Point-of-Use to the SupplyPort for easy reporting
- "Search Elsewhere" feature available for easy product searches within any SupplyPro system

## With SupplyLink You Can:

- Take/return supplies
- Check-in/Check-out tools
- See who has a tool if not available
- Search other devices for inventory and available quantities
- User notification and acceptance of defined tool load periods
- Customize prompts to show lists of data or quantity on hand.
- And much much more...

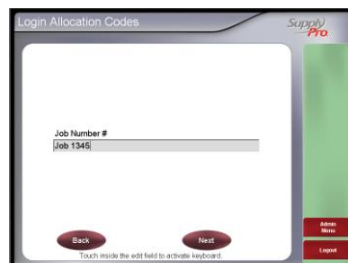

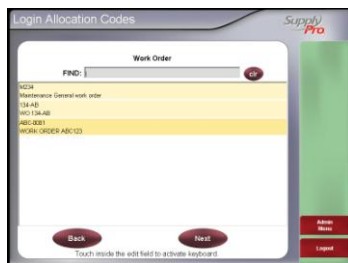

## SupplyLink Features a User-Friendly On-Screen Keyboard

### Easy to Use Administrator Transaction Screens

### User Friendly Transaction Screens that are Customizable for Your Application

Track dynamic allocation information during the user transaction, such as work order and job as shown here

Define usage limits (optional)

## Plug and Go!

Easy to implement, the SupplyLink can control a stand-alone unit or multiple SupplyPro devices for a tailored dispensing solution. More than just a dispensing machine, with SupplyPro you also get SupplyPort, the industry's leading data management backbone, and our full staffing for implementation and on-call support services. Find out more today!
